

Collaboration Opportunities

Option #1: We have content already created that we can post as co-authors

We have a library of videos recorded, covering a variety of topics, such as:

- addressing common questions about insurance obstacles to mental health care,
- providing information about our resources, and
- spreading encouragement that folks don't have to take 'no' for an answer from insurers.

These are ready to post and can be posted as co-authors!

Option #2: We have co-branding templates ready! Simply add your logo!

Example Design #1

Example Design #2

Option #3: We welcome custom collabs

We welcome the opportunity to partner with custom collabs and original designs together – whether with video or graphics, let us know how we can best support you and your online community!
